Kushagra Mahajan

kmahajan@cs.cmu.edu +1-412-214-2036 mahajan-kushagra Kushagra Mahajan kushagramahajan.me

Education

Carnegie Mellon University, School of Computer Science — *Pittsburgh, PA*
Master of Computational Data Science — GPA: 4.06/4.00 — Aug. 2021 – Present
- *Coursework*: Machine Learning, Machine Learning for Large Datasets, NLP, Cloud Computing, Visual Learning and Recognition, Multilingual NLP, Multimodal ML, **Best Capstone Solution Award**

Indraprastha Institute of Information Technology Delhi (IIIT Delhi) — *Delhi, India*
Bachelor of Technology in Computer Science — GPA: 8.78/10.00 — Aug. 2014 – Dec. 2018
- Coursework: Computer Vision, Probabilistic Graphical Models, Data Mining, Collaborative Filtering, Machine Learning (Teaching Assistant - Fall '18), Data Structures and Algorithms, Compiler Design, Database Systems, Operating Systems.

Experience

Amazon — *Seattle, WA*
Software Engineering Intern — Installments Team — May 2022 – Aug 2022
- Analyzed payment failure data and **improved web page notification** system for **payment failures** to be more descriptive and provide rectification steps to customers using **Java**. Reduced customer tickets regarding payment failures by 72%.

Carnegie Mellon University — *Pittsburgh, PA*
Meta AI Sponsored Research Assistant — Advisor: Prof. Louis-Philippe Morency — Feb 2023 – Present
- Working with **Meta AI** on **user satisfaction estimation for VR/AR glasses** using several modalities like **3D visual data** (3D head pose estimation, view normalization, and 3D generation), acoustic, and physiological modalities.

CMU Capstone — Advisor: Prof. Yonatan Bisk — Jan. 2022 – Dec. 2022
- Built state-of-the-art systems for navigation, localization, mapping and interaction of a **virtual assistant bot** based on user-assigned real-world tasks in collaboration with **Amazon Alexa AI**. Currently **ranked #1 on the Amazon Leaderboard**.

TCS Research and Innovation Labs — *Delhi, India*
Machine Learning Engineer — Computer Vision Team | Advisors: Dr. Lovekesh Vig & Dr. Gautam Shroff — Feb. 2019 – April 2021
- Designed a **meta-learning** based framework for **skin lesion** and **chest x-ray classification**, and **segmentation** of medical and natural scene images. Published **3 papers** [2, 3, 4] and built **2 products**.
- Explored **disentangling biological signals** from noise in **cellular images** using **CNNs and ArcFace loss** and achieved top-5 percentile in NeurIPS 2019 challenge with test accuracy 96.06%. Worked on **distributed training**, **GANs**, **visual attention**.
- Built an end-to-end **alignment and information extraction** system for document images using a novel **keypoint extraction algorithm**. Product sold to the Landmark Group. Published **1 paper** [5] and filed **1 US patent** [1].

Intel Corporation — *Bangalore, India*
Machine Learning Intern | Advisor: Mr. Tigi Thomas — Aug. 2017 – Dec. 2017
- Created a highly optimized **sensor-based gesture detection and recognition** model for **on-device** deployment surpassing benchmarks for memory constraints and output latency. Tested by deploying model on laptop hardware.

CVML Lab, IIIT Delhi — *Delhi, India*
Machine Learning Intern | Advisor: Prof. Chetan Arora — Aug. 2016 – Dec. 2018
- Used texture descriptors **(Gabor filters)** to improve clothing segmentation **(DeepLabV2, FCN)** by 3% for **visual fashion image and attribute search** systems. Exploited **pose structure** to enhance SoA **fine-grained classification** performance by 2-3% using CNNs across standard FGVC datasets. Published **2 papers** [6, 7].

Projects

Twitter Cloud Native Web Service with Microservices — *Spring 2022*
Course Project: Cloud Computing | Advisor: Prof. Majd Sakr
- Created an **ETL pipeline using Spark** for processing **1.2TB Twitter data**, and a **microservice** based architecture using **Kubernetes** for data retrieval and running analytic jobs in a **cost constrained** setting.

Multimodal Image to Recipe Generation — *Fall 2022*
Course Project: Multimodal ML | Advisor: Prof. Louis-Philippe Morency
- **Transformer based** recipe generation from food images using a novel approach comprising **co-learning** ingredients, **component-aware embeddings**, **contrastive loss** for semantic similarity, and **improved evaluation metrics**. [Report]

Natural Language Inference for Code-Switched Hinglish — *Spring 2022*
Course Project: Multilingual NLP | Advisor: Prof. Alan Black
- **Improved SoA** on GLUECoS benchmark by **6%** for **code-switched Hindi-English** by translating to matrix or embedded language, and adaptation of language models to the code-switched domain using **transformer models XLM-R, mBERT, mt5** etc. [Report]

Skills & Achievements

Programming Languages, FrameWorks and Tools: Python, C, C++, Java, SQL, Tensorflow, Pytorch, Keras, Spark, PySpark, Caffe, OpenCV, Scikit, NumPy, Pandas, SciPy, EspNet, Kafka, Samza, HBase, MongoDB, AWS, Azure, Kubernetes, Docker
Achievements: Best Capstone Solution Award (MCDS at CMU), *Travel Grant*: AICTE-INAE for ICIP 2018, *Dean's List*: 2017-2018.
